

Sustainability Tour of Ottawa

The Ottawa Biosphere Eco-City (OBEC) Council, in partnership with Tucker House and The Otesha Project, has planned a tour of urban and rural sites that illustrate [ten themes of sustainability](#). The tour will have routes and stopping points for cars, bicycles and private buses.

A May 2012 discussion at the Ottawa 3i Summit on Sustainability (innovate, interact, initiate) brought in many ideas for tour sites. More suggestions are welcomed. A tour guidebook in paper and web formats will explain how each site addresses a particular aspect of sustainability.

This tour will be educational and fun. It is planned to continue as a feature of Ottawa's tourism offering after its launch in the fall of 2013. Special events on launch day will be provided by local community organizations, businesses and schools. There will also be volunteer guides on the bus and bicycle components of the tour.

If you or your organization are interested in providing ideas or support for the tour, or you would like more information, click [Contact Us](#).
